CAREER OBJECTIVE:

Aim to be associated with progressive organization which offers an excellent atmosphere to prove myself by utilizing all technical knowledge into practice and profit myself with experience and valuable knowledge for the development and growth of the organization.

SKILLS:

- Programming Skills: Python, Java
- Web Technologies: HTML, CSS, JavaScript, React Js, Tailwind CSS
- Database: MySQL

PROJECTS:

1. Portfolio Website - Personal

- Designed and developed a responsive portfolio website using React JS, HTML, CSS, and JavaScript to showcase projects, skills, and contact information.
- Implemented navigation, project previews, and enhancing user experience and demonstrating frontend development skills.

2. News App – Top Headlines

- Built a dynamic news app using React JS that fetches and displays top headlines using a public news API, with category-wise filtering and responsive UI.
- Implemented routing, state management, and loading indicators to provide a seamless user experience across different news sections.

3. E-Commerce web Application

- Built a **responsive** e-commerce web application using React and Tailwind CSS with multiple modular components for product listings and add to cart feature.
- Implemented **smooth scrolling navigation** between sections for a seamless and engaging user experience across all devices.
